BUILDTECH/2.0

“Buildtech/” di Floor Gres, contenitore di superfici in gres fine porcellanato capace di instaurare un dialogo diretto con il progettista, evolve in “Buildtech/ 2.0”.

La collezione amplia la sua gamma attraverso una nuova proposta che promuove il vigoroso binomio tra la neutralità del cemento e il carattere deciso di cromie sature destinate agli involucri architettonici.

“Buildtech/” by Floor Gres, a collection of fine porcelain stoneware surfaces capable of dialoguing directly with the architect, now evolves into “Buildtech/ 2.0”. The collection expands its range via a new line focusing on the vigorous partnership between the neutrality of concrete and the decided character of saturated colours, intended for the exteriors of buildings.

« Buildtech/ » de Floor Gres, créateur de surfaces en grès cérame fin à même d’instaurer un dialogue direct avec le concepteur, évolue en « Buildtech/ 2.0 ». La collection élargit sa gamme à travers une nouvelle proposition qui promeut l’union vigoureuse de la neutralité du ciment et du caractère tranché de tons saturés destinés aux enveloppes architecturales.

„Buildtech/“ von Floor Gres, ein Gesamtkonzept von Oberflächen aus Feinsteinzeug, das einen direkten Dialog mit dem Planer herbeizaubert, entwickelt sich zu „Buildtech/ 2.0“. Die Kollektion erweitert ihr Produktsortiment um ein neues Angebot, das die kraftvolle Kombination basierend auf dem neutralen Zement und den charakterstarken satten Farben für architektonische Lösungen fördert.

Buildtech/ de Floor Gres, contenedor de superficies de gres porcelánico fino, capaz de instaurar un diálogo directo con el proyectista, evoluciona en Buildtech/2.0.

La colección amplía su gama a través de una nueva propuesta que promueve el fuerte binomio entre la neutralidad del cemento y el carácter decidido de los cromatismos saturados destinados a los contenedores arquitectónicos.

“Buildtech/” от Floor Gres, коллекция керамогранитных поверхностей, способных наладить прямой диалог с дизайнером, превращается в “Buildtech/ 2.0”. Коллекция расширяет свою линейку новым предложением, продвигающим удачное сочетание нейтральности цемента и решительного характера насыщенных цветов, предназначенных для архитектурной облицовки.

In relazione alle differenti tecnologie produttive l'accostamento di prodotti con spessori diversi potrebbe presentare delle disomogeneità, se ne sconsiglia pertanto l'abbinamento. / Due to the different production technologies, contiguous installation of products with different thickness may give a non-homogeneous result. For this reason we do not recommend this option. / Vu que différentes technologies de production sont utilisées avec des épaisseurs différentes, des problèmes d'homogénéité pourraient se présenter, il est donc déconseillé de les poser ensemble. / Wegen unterschiedlicher Produktionstechnologien können die Fliesen mit verschiedenen Materialstärken optische Differenzen aufweisen. Von einem direkten Aneinanderlegen wird deshalb abgeraten. / Dadas las diferentes tecnologías productivas, la combinación de productos de diferentes espesores podría dar lugar a heterogeneidad, por lo que se desaconseja mezclarlas. / В связи с различием в технологиях производства, сочетание продукции разной толщины иногда может представлять неоднородность материала. Такие сочетания следует избегать.

B&W_MARBLE/

L'idea di dualismo cromatico di "B&W" evolve in "B&W_Marble/", la nuova collezione progettuale del marchio Floor Gres. La serie propone la purezza di tinta dei due opposti di luce per eccellenza, il bianco e il nero, che diventa lo sfondo dal quale prende vita un "pantone lapideo" composto da un ventaglio di elementi dalle forme più o meno regolari che ricordano le venature del marmo.

Il marmo viene inteso come una materia fortemente progettuale legata alla terra e alla natura, rafforzando la proposta di osmosi tra ambiente naturale e ambiente costruito tipica del marchio Floor Gres.

The "B&W" idea of chromatic dualism evolves into "B&W_Marble/", the new Floor Gres collection for architectural projects. The series offers the purity of shades of the most sharply contrasting opposites, white and black, which become the background for a range of "pantone colours in stone", with an assortment of elements of more or less regular shapes that evoke the vein patterns of marble. Marble is viewed here as a material with strong architectural connotations, linked to the earth and nature, reinforcing the concept of osmosis between the natural and built environment typical of the Floor Gres brand.

L'idée de dualisme chromatique de «B&W» évolue en «B&W_Marble/», la nouvelle collection conceptuelle de la marque Floor Gres. Cette série propose la pureté de teinte des deux opposés par excellence, le blanc et le noir, qui devient le fond donnant vie à un « pantone de pierre » composé d'un éventail d'éléments aux formes plus ou moins régulières qui rappellent les veinures du marbre. Le marbre est perçu comme une matière fortement conceptuelle liée à la terre et à la nature, renforçant ainsi la proposition d'osmose entre environnement naturel et environnement construit typique de la marque Floor Gres.

Aus der Idee des chromatischen Dualismus von „B&W“ entsteht „B&W_Marble/“, die neue Designkollektion der Marke Floor Gres. Die Serie bietet die Farbreinheit der zwei Lichtgegensätze par excellence, Schwarz und Weiß. Sie bildet den Hintergrund für eine „steingraue Pantone-Farbpalette“, welche sich aus einer Reihe von Elementen mit mehr oder weniger regelmäßigen Formen zusammensetzt, die an Marmoradern erinnern. Unter Marmor ist ein äußerst gestaltbares Material zu verstehen, das mit der Erde und Natur verbunden ist und die Osmoselösung zwischen dem natürlichen Raum und dem vom Menschen erschaffenen Raum verstärkt. Eine Lösung, die für das Markenzeichen Floor Gres so typisch ist.

La idea de dualismo cromático de B&W evoluciona en B&W_Marble/, la nueva colección de diseño de la marca Floor Gres. La serie propone la pureza cromática de los dos opuestos de luz por excelencia, el blanco y el negro, que deviene el fondo en el que cobra vida un "pantone lítico" compuesto por un abanico de elementos de formas, más o menos regulares, que recuerdan las vetas del mármol. El mármol es considerado una materia de diseño, fuertemente vinculada a la tierra y a la naturaleza, reforzando la propuesta de ósmosis entre el ambiente natural y el ambiente construido, típica de la marca Floor Gres.

Идея цветового дуализма "B&W" перерождается в "B&W_Marble/" - новую проектную коллекцию под брендом Floor Gres. Эта серия предлагает чистоту цвета двух противоположностей света по определению - белого и черного, которые становятся фоном, на котором зарождается "палитра камня", состоящая из разнообразия элементов с более или менее регулярными формами, напоминающими прожилки мрамора. Мрамор подразумевается как материал с выраженной проектной направленностью, связанный с землей и природой, усиливая взаимосвязь между природной средой и искусственной, характерную для бренда Floor Gres.

In relazione alle differenti tecnologie produttive l'accostamento di prodotti con spessori diversi potrebbe presentare delle disomogeneità, se ne sconsiglia pertanto l'abbinamento. / Due to the different production technologies, contiguous installation of products with different thickness may give a non-homogeneous result. For this reason we do not recommend this option. / Vu que différentes technologies de production sont utilisées avec des épaisseurs différentes, des problèmes d'homogénéité pourraient se présenter, il est donc déconseillé de les poser ensemble. / Wegen unterschiedlicher Produktionstechnologien können die Fliesen mit verschiedenen Materialstärken optische Differenzen aufweisen. Von einem direkten Aneinanderlegen wird deshalb abgeraten. / Dadas las diferentes tecnologías productivas, la combinación de productos de diferentes espesores podría dar lugar a heterogeneidad, por lo que se desaconseja mezclarlas. / В связи с различием в технологиях производства, сочетание продукции разной толщины иногда может представлять неоднородность материала. Такие сочетания следует избегать.
